RE: Addendum No. 1 to Final Work Plan for
Site 10 Debris Removal, Building 111 removal of Lead Dust, Calf Pasture Point
Munitions Bunker Lead Cleanup, and Removal of Lead Contaminated Soils
Naval Construction Battalion Center
Davisville, Rhode Island
Submitted 6 December 1996, Dated 5 December 1996

Dear Mr. Otis;

The Rhode Island Department of Environmental Management (RIDEM) Office of Waste Management has reviewed the above referenced document pertaining to lead contaminated soil removal and finds it to be acceptable. Based on our conversation of 17 December 1996 RIDEM agrees that the remaining foundation slabs may be removed once it has been determined that the surrounding soil meets cleanup standards.

If you have any questions or require additional information please call me at (401) 277-3872 ext. 7138.

Sincerely,

Richard Gottlieb, P.E.
Principal Sanitary Engineer
